PROJECTS

Study-Buddies (group project):

- GitHub link : <https://github.com/ssnakeoil/study-buddies>
- Link for the deployed project: <https://study-buddies.herokuapp.com/>
- Summary: This app is designed to help students who wish to study in a group setting but do not have the means to get together by providing a virtual venue for discussion and debate.

When users are stuck on a problem they can go to their buddy Brain Storm's page where they can ask a question and other registered users can comment ideas and answers! Users will also have access to a flashcard generator and can make their own study cards as a personal study tool, assisted by their other buddy Flash! In addition, we've included a live chat feature that can connect students with their teacher for real time answers.

Coding Quiz :

- GitHub link : <https://github.com/yasmineashoush5/coding-quiz>
- Link for the deployed project : <https://yasmineashoush5.github.io/coding-quiz/>
- Summary: It is a typical coding assessment with multiple choice questions and interactive coding challenges.
